**Live Release Rate**

Live Release Rate, as dictated by the Asilomar Accords, is calculated by dividing Total Live Release (adoptions, outgoing transfers and return to owner/guardian) by the sum of Total Live Release and Total Euthanasia. Because Administrative Transfers represent database maintenance and not actual live releases, they are not included in Total Live Release. Additionally, in order to accurately represent the outcomes of animals in ACCT's care, those that were transferred to PSPCA Headquarters but were ultimately euthanized have been deducted from the ACCT Live Release Total and added to Euthanasia Total in the calculation.

	<b>Dogs</b>	<b>Cats</b>	<b>Other</b>	<b>Total</b>	<b>Total D/C</b>
<b>Live Release Rate</b>	64.1%	58.5%	65.6%	60.5%	60.1%

The Live Release Rate does not include 74 animals that died or were lost in the shelter/care, 201 animals that were dead on arrival, or 1 administrative transfer.

**ACCT Foster Care**

The ACCT Foster Program is one of the many life saving arms of the PSPCA. The primary reason for foster care is to provide a temporary home for a potentially adoptable animal whose current condition is not manageable in a shelter setting and to alleviate overcrowding. ACCT receives more animals than there is space, and so moving animals into foster homes not only saves them, but also ensures that newly arriving animals have cage space.
